Wednesday, 27 January, 2021; 2.00 – 4.00pm CET

WebEx virtual conference

The current situation presents significant challenges for private sector investment worldwide, but also opportunities. To better help Czech, Hungarian and Slovak private sector companies understand financing opportunities when investing in emerging markets with IFC as a partner, we invite you to join a knowledge sharing webinar for companies interested or already investing in emerging markets.

In addition, the webinar will provide insights into ***the business environment in Azerbaijan, Belarus, Georgia, Serbia and Ukraine*** and will include a workshop on IFC's ***Global Health Platform***, as part of the World Bank Group's response to COVID-19, aiming to increase the private sector's capacity to deliver the much needed healthcare products and services in the fight against the pandemic.
