

FEATURE-PACKED BOOTHS

There are several types of trade show booths for the exhibitors to showcase their products and serves according to their brand character. Our well-designed booths will let you easily interact with the exhibitors. Through multi-media elements, including e-brochures, posters, videos and more, you can integrate the exhibitors even more effectively than physical exhibitions.

1

Product Showcase

View exhibitor's products in its full glory with pictures (360 & AR), descriptions, technical specifications and brochures

2

AR (Augmented Reality)

Our platform has Augmented Reality integrated to allow you to have a unique experience for better and more precise decisions.

3

Live Stream

@ leveraging Live Stream feature, Iran Virtual Expo enables the users to better interact with the exhibitors regardless of their physical location.

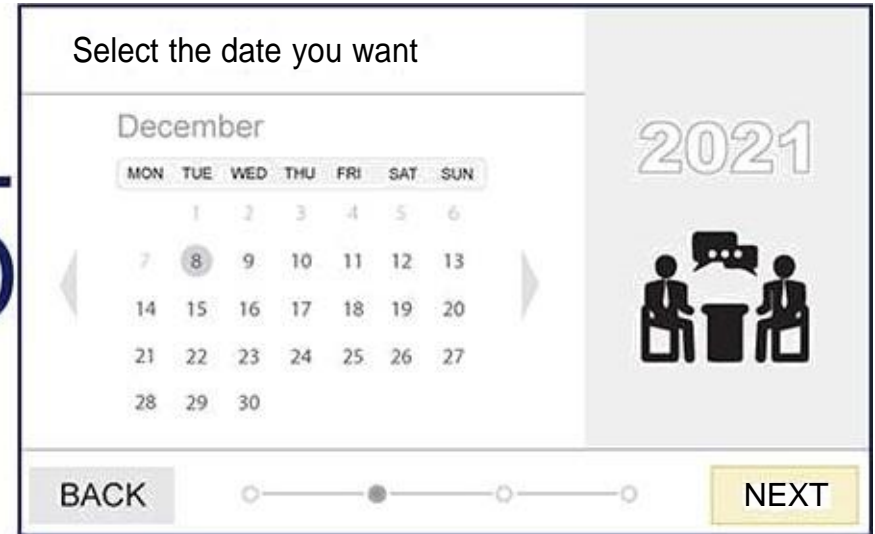

4

Real-Time Chat

As visitors, you can easily interact with the exhibitors via text/audio/video chat in real-time and attain all the information you require

5

Webinars

Through scheduled webinars at the conference halls, you can get updated about the latest news on the exhibitors' product and participate in the ceremonies unveiling new products

6

Mobile Friendly

With our mobile responsive platform, you will keep up with the expo even when you are on the move via any mobile or tablet device.

7

360images

At Iran Virtual Expo, the 360 images will allow you to touch and feel the
