BUSINESS OPPORTUNITIES FROM ISRAEL

November 2024

Greetings from the Federation of Israeli Chambers of Commerce!

As part of our efforts to promote business matchmaking for Israeli companies, we give you this monthly edition of our members' business offers. All are looking for new business partners, distributors, representation or suppliers.

Companies who find these offers relevant to them may contact us directly and approach Ms. Sarit Fishbane: chamber@chamber.org.il

We invite you and your members to submit business offers for publication on our website business opportunity system.

To post an offer, please [click here](#)

Thank you in advance for your cooperation.

Company Name	ST Engineering Telematics Wireless (34210)
Contact Person	Initial contact to be made via the Federation of Israeli Chambers of Commerce: International Relations Division Email: chamber@chamber.org.il
Website	www.tlmw.com
Year of Establishment	1996
No. of Employees	60
Offer No.	154563
Interested in	<i>Export/Cooperation/Franchisee</i>
Summary of offer	<i>Water efficiencies and optimize water conservation through smart water metering solutions</i>

Description of Offer

With 30 years of expertise in wireless communications technology and innovation, our company is known for providing robust city-scale solutions that deliver proven results for its customers around the world. To date, our company has more than 17 million wireless nodes deployed globally, empowering utility operations, from municipalities to cities, in their journey towards a water-secure future.

When integrated with BrightCity Meter Data Management System (MDMS), our technology empowers water utility operations to precisely manage water distribution and operations networks.

Additionally, it provides water utilities with a low-cost alternative to avoid expensive 'rip-and-replace' projects and gain the full spectrum of Water AMI benefits, from field to consumer.

Our Products:

An end-point device designed to enable wireless network connectivity for unconnected water meters, converting them to smart wireless water meters through simple plug-and-play.

With wireless network connectivity enabled, it automatically and accurately collects, stores, and transmits meter readings to a Water Advanced Metering Infrastructure (AMI) field network.

Other Information	Our company is a fully owned subsidiary of a global technology, defense and engineering group with a diverse portfolio of businesses across the aerospace, smart city, defense and public security segments, serving customers in more than 100 countries.
Potential Partners	Water solutions distributors, water infrastructure companies, water services companies, water equipment franchisee.
Target Countries	USA

Summary of offer	<i>Laser-based measuring and 3D CAD drawing services for the Architecture, Engineering, and Construction (AEC) industry, as well as for the remodeling, interior design, home improvement and real estate markets</i>

Description of Offer

Our company is the world leader in laser-based measuring and 3D CAD drawing technology & service for Architecture, Engineering & Construction (AEC), Remodelling, Interior Design, Home Improvement and Real Estate markets.

The company addresses the global problem of inaccurate and missing details in measurements and engineering drawings for designers. Our unique solution saves time, eliminates errors, prevents customer complaints, and delivers significant savings—up to \$150,000 per store annually.

With over 450,000 successful projects completed to date and a current rate of 3,000+ jobs per month, our technology has been proven globally. We've established Technology and Service Centers in five countries, supported by a world-class team.

Our innovative software enables precise on-site 2D and 3D drawings with these key features:

1. Scanning spaces with a laser device.
2. Automatically generating 2D/3D drawings.
3. Adding ALL necessary job-site details to the drawings.
4. Verifying the ACCURACY of measurements.
5. Automatic conversion of the drawings to TOP CAD programs
6. Immediately sending the drawings via a cloud-based server from the job site.
7. Eliminating errors for designers and reducing extra work in the office.

We are expanding globally through our network of Service Partners (ISPs) who use our laser-based software to provide measuring and 3D CAD drawing services to customers in their territory.

We offer ISPs an attractive and profitable business opportunity to expand their operations by adding customers in new market segments.

Joining our Service Partner plan is totally free, with no subscription or any flat fee payment. The ISPs pay only “per use” of the software, i.e. an agreed payment per room measured.

We provide free technical and sales training, follow-up and technical support.

ISPs working with us have experienced significant business growth in recent years.

Other Information	The \$ 2B global market of measuring and drawing industry serves designers, engineers, architects, remodeling companies, flooring and carpet dealers, construction companies, real estate, property managers and all other organizations which requires accurate measurements, complete 2D/3D CAD drawing and detailed information from their job sites.
Potential Partners	<ol style="list-style-type: none"> 1. Matterport Virtual Tour Service Partners 2. 3D Virtual Tour service providers 3. 2D & 3D CAD Drafters 4. Indoor measuring services 5. AutoCAD - Residential & Commercial Architectural Drafter. 6. Surveying and inspection for the development of as-builts. 7. CAD designers 8. Interior designers 9. Home Surveyors 10. Cabinet Installers 11. BIM specialists
Target Countries	Germany, France.
