

CBC inspirational mission to Budapest and Debrecen 4-7th May 2026

	Company (+web page)	Name	Position	Business line
1	Czech Battery Cluster	Jan Vejbor	Executive Manager	CBK brings together representatives of companies, universities and institutions in areas linked to the value chain associated with battery production, i.e. from the extraction of materials through battery production and applications to battery recycling. The cluster's main objective is to develop new technologies and cooperation in different areas of battery production and application.
2	Brno Technical University	Tomas Kazda	Head of Battery Research and CBC Chairman	Czech university with more than 120 years of teaching tradition and 60 years of battery research tradition.
3	EVC Group	Robert Janečka	Business Manager	Development, production and sale of energy storage systems, battery cells and electric drives, service work. Comprehensive solutions for lithium battery systems. Energy storage (ESS, BESS, BSAE, battery storage), industrial solutions for lithium batteries, home solutions, batteries for e-mobility.
4		Vojtěch Kašpárek	Battery Design Engineer	
5	JHV	Michal Kubáň	Sales Manager	We develop fully automated industrial machines and lines. Our team of 200+ innovative engineers can offer a complete solution, from the initial analysis, through the implementation of automation, to follow-up service. We focus on following industries: automotive, electronics, construction, e-mobility, healthcare, and art.
6	Kovohutě Příbram	Viliam Blumtritt	Business Development Manager	Purchase and recycling lead waste, lead car batteries - lead production. Metallurgical plant which recycles wastes containing lead (in particular lead batteries), produces lead and lead alloys, lead and tin products and recycles wastes containing precious metals and wastes of electric and electronic equipment.
7		Ivo Oktábec	Technologist	

8	Bilfinger	Áron Bajcsy	Business Development Manager	Design and consulting company providing projects across the entire battery chain from raw material processing through battery cell manufacturing up to recycling.
9	TIYO	Jaromír Kejval	Chief Technical Officer	Development and production of test equipment, laboratory testing, and production of parts according to EN 9100. We are the best-equipped independent laboratory for testing and development of automotive components in Central Europe.
10	CEITEC	Michaela Škaroupková	Business and Marketing Director	Multidisciplinary research centre with a focus on material characterisation and providing a variety of expertise in battery testing.
